

Feedback:

People editing over the top of each other - (google docs - unable to rewrite, wetpaint gives you options)

... time consuming on desktops??

more pages = less head butting :) Eg: wiki on a country/climate/ecology etc...

privacy issues - relevancy (depends on purpose of wiki)

what is appropriate for us to share on the internet - what is your fingerprint on the internet?!

navigation.

creating a rotating system for interviewing (depending on age group) filling in information and going back to wiki.

Building a story together... working collaboratively eg: edit a flawed essay as a group...justifying edits... newsletter... adding on a weekly basis/blogs etc.

Teachers can use it to collaborate work/curriculum... edit from home... no need to keep downloading documents and re uploading.

Use comments to reflect what is on the wiki.

Make sure there are guidelines for the children! CLEAR INSTRUCTIONS!

People had fun!
